BIO TWO WOMEN, ONE VISION

Addison McKnight is the pen name for two writers

Nicole Moleti and Krista Wells

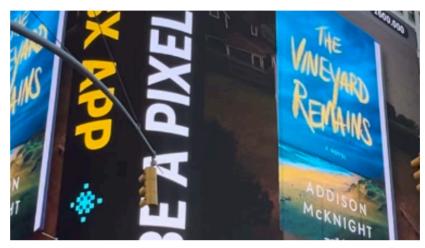

After over a decade of writing nonfiction, their common interests in women's issues, coupled with the cultural obsession with perfection sparked an idea for their debut novel, *An Imperfect Plan, and* their second book, *The Vineyard Remains*.

With six jobs and six children between them, they wrote their first book on saturday nights and on the sidelines of their children's games and continue to write novels featuring rich people behaving badly. Their books are a provocative blend of women's fiction and psychological suspense that provide rich book club conversations.

SHAPING STORIES THAT RESONATE ON THE PAGE AND BEYOND

Suspenseful, dark, and emotionally riveting, *The Vineyard Remains* contrasts an idyllic setting with complex family secrets, which makes for a pacey and intense read.

May Cobb, author of *The Hunting Wives*

Uncovers dark secrets that haunt ordinary families. Luanne Rice, author of *The Shadow Box*

Provocative and gripping, An Imperfect Plan, is a visceral exploration of the quest for perfection—our modern addiction to having the perfect life, the perfect partner, and perfect children. Andrew & Wilson, Wall Street Journal bestselling authors of *Tierone*

Secrets wash up like seawater in Addison McKnight's island tale of betrayal and deception, which proves one age-old truth. Nobody can hurt you like those who love you best.

Summary: Two women, brought together by tragedy, strive to find themselves on Martha's Vineyard. But it's not easy to heal old wounds in a powerful novel about family, secrets, motherhood, and the cold grip of the past.

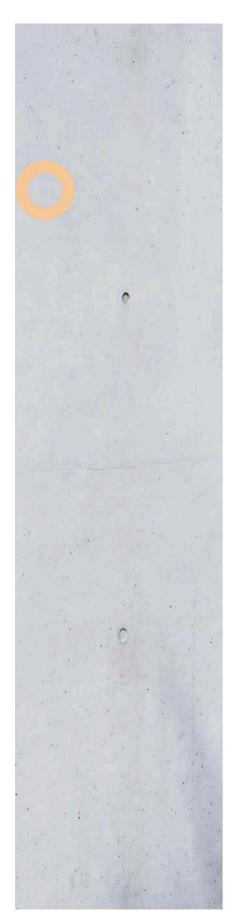

A desperate murder committed by Angela Miller's mother tore Angela's life apart and brought her to Martha's Vineyard to live with her wealthy grandparents. It's where her cousin, Kiki King, was born and raised, and Kiki now wants nothing more than to see the world beyond its sandy perimeter. Kiki's mother escaped it. She took a late-night swim off Tashmoo Beach and was never seen again.

Once bound by broken childhoods, Angela and Kiki have grown up divided—by their obsessions, their love for the same man, and their own conflicted journeys of motherhood. But when a small box of bones is unearthed in the woods, Angela and Kiki discover there's so much more to learn about each other, their families, and the dark side of the picturesque island they call home.

It's time for Angela and Kiki to expose their secrets, to end a cycle of family drama and anguish, and to forgive and make peace with the past on their own terms.
